You are
what you
drink

Make the healthiest decision
about the water in your home
by choosing Aquasana.

You can rest easy

Make the right decision for your home by choosing Aquasana.

Winner of Health Magazine's 2010 America's Healthiest Buys

We're all made of more than 70% water, and clean, healthy, great-tasting water has never been more important than it is today. As our exposure to environmental pollutants increases, so does our need for filtered, healthy water.

Our award-winning drinking water filter is a great upgrade from pitcher filters and bottled water. It is better for you, better for your wallet and better for the planet.

It's like getting 4,000 bottles of water or up to 22 pitcher filters in one product

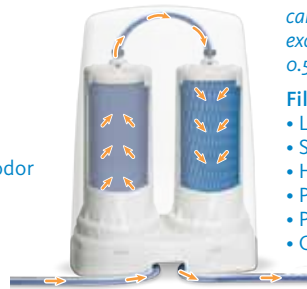

Healthy water is the heart of a healthy family. Take charge of the health of your family by choosing Aquasana.

Clearly better water, every day.

By combining activated carbon, ion exchange and sub-micron filter technologies in an optimized sequence, Aquasana's drinking water filter removes the most contaminants for the lowest cost per serving: satisfaction guaranteed.

Cartridge A is a bituminous carbon filter with 5 micron pores
Filters

- Sediment & turbidity
- Bad taste & odor
- Chlorine

Cartridge B is a coconut shell carbon and ion exchange filter with 0.5 micron pores
Filters

- Lead
- Synthetic chemicals
- Herbicides
- Pesticides
- Pharmaceuticals
- Cysts

- The only leading water filter product that preserves healthy minerals like calcium, magnesium and potassium
- Twin cartridges target more chemicals and contaminants, including chlorine, lead, herbicides, pesticides, pharmaceuticals and industrial solvents
- Always available, great-tasting, odorless water for your household to enjoy
- Easy to install with filters lasting six months or 500 gallons
- Made in the USA
